A web-enhanced course is a classroom-based course that has, as required support material, an instructor-created web page used weekly by all students in the course. It is strongly recommended that students enrolling in Web-enhanced courses have their own access to a computer and the Internet. Students should have competency in accessing and using e-mail and the World Wide Web.

An on-line e-course refers to a course which does not require the physical presence of the student in a traditional classroom. The students complete most of the course requirements on the World Wide Web through the use of an instructor-created web page and web interaction such as chat rooms, e-mail, or other forms of interactivity. Students may be required to go to a specified site for examination or other course-related purposes. It is required that students enrolling in an E-course have their own access to a computer and the Internet. Students should have competency in accessing and using e-mail and the World Wide Web. Additional information on e-courses is also available on the Web at <http://www.hpu.edu/ecourses/>.
