

Plan for General Education for an Economics major

Take the listed courses for those gen ed categories. For the blank categories take an eligible course of your choice, but pay attention to the notes in the final column which will help you to schedule your cross-theme courses. While students should generally avoid taking additional common core courses in a category they have already filled, this major does require multiple courses that could meet Communication Skills B and Research and Epistemology C. There is a list of these "extra" courses below the table.

Requirement	Course	✓ if taken	Notes
Cross-theme requirements			
Digital Literacy			Take either course and fill it in below.
Art, Aesthetics and Creativity			Take one of the options from Values and Choices A, world Cultures A or World Cultures C. You can also use options in Communication Skills C if not taking CSCI 1011
Common Core Courses			
Communication Skills A			
Communication Skills B	Language course		
Communication Skills C			Digital literacy course (CSCI 1011) could be taken here; if not taking CSCI 1011 then an AAC course is possible
Global Systems A			
Global Systems B			Not ECON 1010 (two counted from ECON already)
Global Systems C			Digital literacy course (CSCI 1041) could be taken here
Research and Epistemology A			
Research and Epistemology B	MATH 1130		
Research and Epistemology C	PSY 1000		You will also take MATH 1123
Values and Choices A			Possible AAC course
Values and Choices B	ECON 2010		
Values and Choices C	ECON 2015		
World Cultures A			Possible AAC course
World Cultures B	SOC 1000		
World Cultures C			Possible AAC course

Upper-Division General Education			
Upper-Division Research and Writing	MGMT 3550 or COM 3420		Required but does not overlap with major requirements
Citizenship			

Required “Extra” common core courses

Communication Skills B: You will need a second semester of a foreign language

R&E C: You will need to take MATH 1123 in addition to PSY 1000 to meet lower-division major requirements.
