LAW 3410 Constitutional Law

Lower Division Elective
HMLD 2000 Disaster Preparedness & Response
SOC 1000 Intro to Sociology
SOC 2000 Social Problems & Policy

---

*Place Out Options for Specific General Education (GE) Requirements:

Students may receive college credits based on specific scores on the College Board's Advanced Placement (AP), the College Level Examination Program (CLEP), the International Baccalaureate (IB), and U.S. military training in multiple subject areas. In addition, GE course requirements may be waived based on specific scores on the SAT or ACT college admission exams in the following categories:

- **Written Communication & Information Literacy I:**

  Students who score 630 or above on the SAT critical reading or 28 or above on the ACT English may place out of the GE "**Written Communication & Information Literacy I**" category. Students will not receive course credit for placing out of the category, though will have satisfied the GE course requirement and are able to take the next course in the sequence in the "Written Communication & Information Literacy II" category (WRI 1200 or WRI 1250). Furthermore, students may substitute the 3 credits with unrestricted electives to fulfill the 120 credit bachelor's degree requirement.

- **Quantitative Analysis & Symbolic Reasoning:**

  Students who score 630 or above on the SAT math or 28 or above on the ACT math may place out of the GE "**Quantitative Analysis & Symbolic Reasoning**" category. Students will not receive course credit for placing out of the category, though will have satisfied the GE course requirement and are able to take the next course in the sequence if required by the major (e.g., may place out of MATH 2214 and enroll in MATH 2215). If the GE category "Quantitative Analysis & Symbolic Reasoning" does not include additional courses required for the major, the student has satisfied this GE category. Furthermore, students may substitute the 3 credits with unrestricted electives to fulfill the 120 credit bachelor's degree requirement.
